

GFI WET FREIGHT MARKET DATA

GFI has been building liquidity and expertise in more than 90 markets, including energy and commodities, for over 20 years. GFI's wet freight brokerage desk offers ship owners, charterers, energy companies, trading houses and financial institutions the ability to hedge and manage portfolio freight exposure. Through a partnership with ACM Shipping, GFI offers hybrid phone and electronic brokerage of wet freight derivatives in New York, London, Singapore and Tokyo. Over 250 institutions operating in the world are currently served by GFI/ACM. A higher number is expected as the market develops.

DATA COVERAGE

GFI/ACM currently intermediates 27 wet routes, with 14 of these being actively traded on a daily basis. The table below shows the main regularly traded routes and the major parameters around each of these routes.

DIRTY CLEAN	ROUTE CODE	ROUTE NAME	ROUTE START/ END POINTS	TONNES

PREPARATION

Professional data analysts monitor the collection, organization, quality and storage of the data.

Wet Freight Market Data products are sourced from the trading system and the back office trade settlements systems to capture actual trades and tradable bid/offer prices into a database in real-time. Data is captured in CSV files and made available to customers via the GFI FTP site.

GFI holds historical data since June 2003.

GFI offers global support with 24/7 coverage.

DATA DELIVERY

- GFI FTP site and data download website.

The data is exported in .csv files

- Intraday (updating every hour).
- End of day (available at 19.00pm UK time).

ENERGY & COMMODITIES
