## FENICS® and 360T sign Software Collaboration Agreement

**Agreement will embed FENICS pricing module within 360T's TEX trading platform.**

FENICS® Software Ltd, a GFI Group Inc. (NYSE:"GFIG") company, announced today that it has signed an agreement with 360 Treasury Systems AG "360T" to embed the FENICS FX Options Pricing engine (FENICS ePricer) into 360T's TEX multi-dealer trading system.

FENICS ePricer provides indicative price discovery across a wide range of currency pairs, and has been configured to support the strategies and workflows within the 360T TEX platform - including one and two-legged vanilla strategies, supporting both live (without hedge) and delta-hedged requests. Prices generated by FENICS ePricer flow seamlessly into 360T's TEX trading platform which can subsequently send RFQ's to the 360T liquidity pool. This incorporated solution also includes all benefits of a multi-bank platform like the documentation of best price execution and a fully straight-through processing (STP).

**"The inclusion of the FENICS options pricer within our TEX service will give our clients, in addition to our powerful services, access to the market-leading indicative pricing system and will encourage flows through our TEX platform"**

Carlo Koelzer, CEO, 360T

Richard Brunt, Managing Director FENICS, said: "We are delighted to have reached this agreement with 360T and to support the TEX platform with the FENICS ePricer, the partnership will introduce FENICS technology to a wider user base in client segments such as corporate treasuries, buy side institutions and smaller regional financial institutions."

Carlo Koelzer, CEO at 360T, added: "The inclusion of the FENICS options pricer within our TEX service will give our clients in addition to our powerful services, access to the market leading indicative pricing system and will encourage flows through our TEX platform. We have rolled the FENICS ePricer to a cross section of our client base and the feedback has been extremely encouraging, and we look forward to a wider rollout in the coming month."

### Forward-looking statement

Certain matters discussed in this press release contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. When used in this press release, the words "anticipate," "believe," "estimate," "may," "might," "intend," "expect" and similar expressions identify such forward-looking statements. Actual results, performance or achievements could differ materially from those contemplated, expressed or implied by the forward-looking statements contained herein. These forward-looking statements are based largely on the expectations of GFI Group Inc. (the "Company") and are subject to a number of risks and uncertainties. These include, but are not limited to, risks and uncertainties associated with: economic, political and market factors affecting trading volumes; securities prices or demand for the Company's brokerage services; competition from current and new competitors; the Company's ability to attract and retain key personnel, including highly-qualified brokerage personnel; the Company's ability to identify and develop new products and markets; changes in laws and regulations governing the Company's business and operations or permissible activities; the Company's ability to manage its international operations; financial difficulties experienced by the Company's customers or key participants in the markets in which the Company focuses its brokerage services; the Company's ability to keep up with technological changes; uncertainties relating to litigation and the Company's ability to assess and integrate acquisition prospects. Further information about factors that could affect the Company's financial and other results is included in the Company's filings with the Securities and Exchange Commission. The Company does not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
