

GFI FENICS receives top 2012 awards from Asia Risk

FENICS Trader named Technology Development of 2012

New York, November 27, 2012 - GFI FENICS, part of GFI Group Inc. (NYSE: "GFIG"), announced today that it has received two prestigious 2012 awards from Asia Risk magazine:

- GFI FENICS has obtained 1st place in the Foreign Exchange Derivatives Pricing and Risk category in the Asia Risk Rankings.
- FENICS Trader received the Technology Development of the Year award.

Richard Brunt, Global Head of GFI FENICS said: "In the year that GFI FENICS celebrates its 25th anniversary, we are extremely proud to have been recognised by Asia Risk magazine and its readers as a market leader in FX options" and added, "We are also very happy for the success of FENICS Trader to be acknowledged. Our monthly trade volumes have continued to grow impressively over the last 12 months, even during the traditionally slow summer months, and a period of low activity in the market. We are optimistic about business growth opportunities in 2103 for both FENICS Professional and FENICS Trader".

"In the year that GFI FENICS celebrates its 25th anniversary, we are extremely proud to have been recognised by Asia Risk magazine and its readers as a market leader in FX options."

Richard Brunt, Global Head, GFI FENICS

FENICS Professional is a suite of pricing, trading, risk management and STP (straight-through processing) components allowing customers to control, monitor and oversee a comprehensive range of FX option trading and lifecycle management from one single interface. FENICS provides the necessary tools, math models and independent market data for fast, accurate price discovery and revaluation of vanilla options and exotic, multi-leg, and multi-currency strategies.

FENICS Professional is licensed to over 350 clients worldwide, financial institutions and corporations, with thousands of users benefiting from its solutions

FENICS Trader is a multi-bank venue delivering indicative and tradable FX options liquidity to the FENICS ProfessionalTM customer base. Since its successful launch in 2011, significant new functionality has been added to increase price transparency and ease of price request to improve user workflow and efficiency.

Forward-looking statement

Certain matters discussed in this press release contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. When used in this press release, the words "anticipate," "believe," "estimate," "may," "might," "intend," "expect" and similar expressions identify such forward-looking statements. Actual results, performance or achievements could differ materially from those contemplated, expressed or implied by the forward-looking statements contained herein. These forward-looking statements are based largely on the expectations of GFI Group Inc. (the "Company") and are subject to a number of risks and uncertainties. These include, but are not limited to, risks and uncertainties associated with: economic, political and market factors affecting trading volumes; securities prices or demand for the Company's brokerage services; competition from current and new competitors; the Company's ability to attract and retain key personnel, including highly-qualified brokerage personnel; the Company's ability to identify and develop new products and markets; changes in laws and regulations governing the Company's business and operations or permissible activities; the Company's ability to manage its international operations; financial difficulties experienced by the Company's customers or key participants in the markets in which the Company focuses its brokerage services; the Company's ability to keep up with technological changes; uncertainties relating to litigation and the Company's ability to assess and integrate acquisition prospects. Further information about factors that could affect the Company's financial and other results is included in the Company's filings with the Securities and Exchange Commission. The Company does not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
