## FENICS® works with Western Union Business Solutions in Europe

FENICS® Software Ltd. today announced that Western Union Business Solutions, a division of the Western Union Company, a leader in global payment services, has licensed FENICS Professional™, a pricing and risk management system, to enable it to extend increased foreign exchange products and services to its European clients. This new agreement adds to existing services FENICS has been providing Western Union Business Solutions in other markets.

FENICS Professional will provide Western Union Business Solutions in Europe with various bespoke customisations such as mirror ticketing for booking internal trades, multi-lingual client confirmations and internal ticket identifier reporting that will support its efforts to bring new product offering to clients.

Richard Brunt, Managing Director of FENICS, said: “We are delighted Western Union Business Solutions has chosen to use our software in Europe. FENICS has been working with Western Union Business Solutions for seven years and we have developed an excellent relationship during that time. We look forward to supporting their European team as they work to expand the products they are able to offer customers.”

Tony Crivelli, Vice President, Global Options Strategy at Western Union Business Solutions, commented: “Our first priority is to bring best in class service to our clients. We are expanding our product set to meet growing needs around the world, which is why working with the right partners is crucial. We have been using FENICS Professional in other markets with great success, so it was a natural step to expand our relationship to Europe as well.”

FENICS Professional is a suite of pricing, trading, risk management and STP (straight-through processing) components allowing customers to control, monitor and oversee a comprehensive range of FX option trading and lifecycle management from one single interface.

FENICS has been providing leading FX derivatives software since 1987. Its products are licensed to over 350 institutions worldwide with thousands of users benefiting from its solutions. Clients include banks, multinational corporations, brokers, and hedge funds.

Western Union Business Solutions enables companies and organizations of all sizes to send and receive international payments and manage foreign exchange, creating unique solutions tailored to suit their individual needs. It is a business unit of the Western Union Company (NYSE: WU), a leader in global payment services, and offers services through locally licensed affiliates in over 30 countries. Supported by a network of trading offices, strategic banking relationships and a global clearing network, businesses can send cross-border payments in more than 135 currencies. © 2013 Western Union Holdings, Inc. ### About FENICS®

FENICS Software Limited is a wholly owned subsidiary of GFI Group Inc., a leading provider of wholesale brokerage services and trading support products in a multitude of global cash and derivatives markets.

FENICS has more than 25 years' experience of providing intuitive price discovery software to currency derivative markets. Its ability to deliver powerful and accurate price discovery and revaluation is enhanced by GFI's presence as an important independent intermediary in OTC markets.

FENICS analytics is supported with an abundance of independent market data sourced directly from GFI's trading systems. FENICS' leading foreign exchange option pricing and analysis tool is licensed for use at over 350 client sites worldwide. FENICS operates from offices in London, New York, Shanghai, Singapore, Hong Kong, Tokyo and Sydney.

### Forward-looking statement

Certain matters discussed in this press release contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. When used in this press release, the words “anticipate,” “believe,” “estimate,” “may,” “might,” “intend,” “expect” and similar expressions identify such forward-looking statements. Actual results, performance or achievements could differ materially from those contemplated, expressed or implied by the forward-looking statements contained herein. These forward-looking statements are based largely on the expectations of GFI Group Inc. (the “Company”) and are subject to a number of risks and uncertainties. These include, but are not limited to, risks and uncertainties associated with: economic, political and market factors affecting trading volumes; securities prices or demand for the Company's brokerage services; competition from current and new competitors; the Company's ability to attract and retain key personnel, including highly-qualified brokerage personnel; the Company's ability to identify and develop new products and markets; changes in laws and regulations governing the Company's business and operations or permissible activities; the Company's ability to manage its international operations; financial difficulties experienced by the Company's customers or key participants in the markets in which the Company focuses its brokerage services; the Company's ability to keep up with technological changes; uncertainties relating to litigation and the Company's ability to assess and integrate acquisition prospects. Further information about factors that could affect the Company's financial and other results is included in the Company's filings with the Securities and Exchange Commission. The Company does not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
