## Yuanta Bank connects to FENICS Gateway

FENICS®, a leading provider of FX options software, announced today that Yuanta Bank, a leading Taiwanese commercial bank, has connected to FENICS Gateway and also extended its FENICS Professional license.

FENICS Gateway is a FENICS-hosted messaging hub connecting multibank and single bank transactional venues to FENICS Professional clients. It allows STP connectivity of post-trade details both between counterparties, and straight into the client's FENICS database for risk management and onward distribution to trade repositories via third parties such as Traiana. FENICS Gateway supports STP for FX options, precious metals, NDF's, spot and forward trades.

Richard Brunt, Managing Director of FENICS, said, "We are delighted that Yuanta Bank has extended its relationship with FENICS, and joined the growing community using FENICS Gateway for post trade messaging." Brunt continued: "FENICS Gateway was soft launched at the turn of the year and has already processed in excess of a thousand trades a month between execution venues and FENICS clients. We expect the volumes to continue to grow as more clients and publishers come on board".

Sywoei Lui, Senior Trader at Yuanta, said, "As well as innovative solutions for the FX options marketplace we continue to be impressed with the professionalism when dealing with the expert staff at FENICS. We look forward to partnering with FENICS for many years to come."

FENICS is used at over 350 client sites worldwide with thousands of end users from all across the financial markets benefiting from its solutions.

### About FENICS®

FENICS® Software Limited is a wholly owned subsidiary of GFI Group Inc., a leading provider of wholesale brokerage services and trading support products in a multitude of global cash and derivatives markets.

FENICS has more than 27 years' experience of providing intuitive price discovery software to currency derivative markets. Its ability to deliver powerful and accurate price discovery and revaluation is enhanced by GFI's presence as an important independent intermediary in OTC markets. FENICS analytics is supported with an abundance of independent market data sourced directly from GFI's trading systems. FENICS' leading foreign exchange option pricing and analysis tool is licensed for use at over 350 client sites worldwide. FENICS operates from offices in London, New York, Singapore, Hong Kong, and Tokyo.

### Forward-looking statement

Certain matters discussed in this press release contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. When used in this press release, the words "anticipate," "believe," "estimate," "may," "might," "intend," "expect" and similar expressions identify such forward-looking statements. Actual results, performance or achievements could differ materially from those contemplated, expressed or implied by the forward-looking statements contained herein. These forward-looking statements are based largely on the expectations of GFI Group Inc. (the "Company") and are subject to a number of risks and uncertainties. These include, but are not limited to, risks and uncertainties associated with: economic, political and market factors affecting trading volumes; securities prices or demand for the Company's brokerage services; competition from current and new competitors; the Company's ability to attract and retain key personnel, including highly-qualified brokerage personnel; the Company's ability to identify and develop new products and markets; changes in laws and regulations governing the Company's business and operations or permissible activities; the Company's ability to manage its international operations; financial difficulties experienced by the Company's customers or key participants in the markets in which the Company focuses its brokerage services; the Company's ability to keep up with technological changes; uncertainties relating to litigation and the Company's ability to assess and integrate acquisition prospects. Further information about factors that could affect the Company's financial and other results is included in the Company's filings with the Securities and Exchange Commission. The Company does not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
